SUMMARY

Financial analyst with five years in FP&A at logistics and manufacturing companies. I build the forecasts and models that pricing, budget and capital decisions are made on, and explain them to people who don't live in Excel.

EXPERIENCE

Tarnhollow Logistics

Charlotte, NC

Financial Analyst

Jul 2023 – Present

- Own the monthly forecast for a \$240M freight division; operating income forecast error fell from 9% to 3% over four quarters
- Built a driver-based Excel model for fuel and lane pricing that the CFO used to approve a 4% rate increase
- Cut month-end variance reporting from five days to two by pulling data from three systems into one Power BI report
- Prepared the capital request for a \$6.5M warehouse expansion, with payback, downside and delay cases

Harmon & Pike Manufacturing

Greensboro, NC

Junior Financial Analyst

Jun 2021 – Jun 2023

- Tracked spending against budget for 11 cost centers and sent plant managers a one-page overrun summary each month
- Rebuilt the plant headcount model after a reorganization, removing about 40 hours of manual updates per quarter
- Consolidated department submissions for the annual budget into a single file the controller reviewed line by line

Queen City Community Bank

Charlotte, NC

Finance Intern

Jun 2020 – Aug 2020

- Reconciled loan fee accounts each week and wrote up the three largest variances for the accounting manager

EDUCATION

Larkbriar University

Raleigh, NC

Bachelor of Science in Finance

May 2021

- Coursework: Corporate Finance, Financial Modeling, Managerial Accounting, Econometrics

SKILLS

Modeling: Three-statement models, DCF, budgeting and forecasting, scenario analysis
