EDUCATION

Santa Clara Valley University

Bachelor of Science in Computer Science

San Jose, CA

Aug 2022 – May 2026

- GPA: 3.6/4.0
- Coursework: Distributed Systems, Compilers, Machine Learning, Computer Security

EXPERIENCE

Software Engineer Intern

Jun 2025 – Sep 2025

Brightline Payments

San Francisco, CA

- Added idempotency keys to the refunds API in Kotlin, ending duplicate refunds that had cost about \$4,000 a month
- Cut the payout reconciliation job from 40 minutes to 6 by batching database reads and adding two indexes
- Wrote the runbook and alerts for the new service and took two weeks of on-call shadow shifts

Backend Developer Intern

Jun 2024 – Aug 2024

Orchard Health Software

San Jose, CA

- Built a FHIR import tool in Python that loaded 1.3M patient records for a hospital pilot without manual fixes
- Raised test coverage of the scheduling service from 61% to 85% with pytest and contract tests

PROJECTS

Quorum | *Go, Raft, Docker*

2025

- Key-value store with Raft consensus across five nodes; survives two node failures in chaos tests

Shelfie | *TypeScript, React Native, Firebase*

2024

- Book swap app for campus dorms with about 900 sign-ups in its first semester

Hackathon Judge Bot | *Python, Slack API*

2023

- Slack bot that assigns judges and tallies scores; used at three campus hackathons

TECHNICAL SKILLS

Languages: Python, Go, Kotlin, TypeScript, SQL, C

Frameworks: React, Spring Boot, FastAPI, gRPC

Tools: Git, Docker, Kubernetes, PostgreSQL, AWS, Linux

Awards: Dean's List; SCVU Hacks winner
