PROFESSIONAL SUMMARY

Data analyst with six years of experience in retail and energy, most recently leading pricing and customer analytics for a UK retail group. I build models and dashboards that commercial teams use every week, and I enjoy explaining numbers to people who don't work with data all day. Looking for a senior analyst or analytics lead role in Manchester or remote.

WORK EXPERIENCE

Northgate Retail Group	Manchester, UK
<i>Senior Data Analyst</i>	Mar 2023 – Present

- Lead a team of three analysts supporting pricing, promotions and loyalty for 140 stores and the online shop
- Built a promotion uplift model in Python that replaced a manual spreadsheet process and is now used to plan every seasonal campaign
- Designed the weekly trading dashboard in Power BI, used by 60 managers across buying and store operations
- Found that 18% of loyalty vouchers were going to customers who would have bought anyway, and redesigned targeting to save about £400,000 a year
- Introduced code review and a shared SQL library, which halved the time new analysts need to deliver their first report
- Worked with the supply chain team on a markdown model for seasonal stock, reducing end-of-season clearance by about 9% across clothing and homeware

Pennine Energy	Leeds, UK
<i>Data Analyst</i>	Jun 2020 – Feb 2023

- Forecast monthly churn for 250,000 household customers and flagged at-risk accounts for the retention team
- Built a self-serve churn dashboard so the retention team could filter at-risk customers by tariff and region without waiting for an analyst
- Automated regulatory reporting to Ofgem with SQL and Python, cutting a three-day monthly task to two hours
- Worked with the call centre to analyse complaint reasons, which led to a simpler bill layout and 15% fewer billing calls
- Ran A/B tests on renewal emails that raised fixed-tariff renewals by 6 percentage points

Calder & Wright	Leeds, UK
<i>Graduate Analyst</i>	Sep 2018 – May 2020

- Cleaned and analysed sales data for consulting projects with clients in food manufacturing and logistics
- Built Excel models for market sizing and supplier cost comparisons used in client recommendations
- Prepared charts and short summaries for partner presentations, often on tight overnight deadlines
- Interviewed purchasing managers at eight food manufacturers to check our cost assumptions, and wrote up the findings for the client steering group

University of Sheffield Department of Economics	Sheffield, UK
<i>Research Assistant</i>	Jul 2017 – Aug 2018

- Collected Land Registry and census data for a study on regional house prices
- Cleaned and matched 1.2 million sale records to local authority areas
- Wrote Stata scripts for the regression analysis and documented each step
- Produced the maps and charts used in the final report and a journal article

- Checked other researchers' code before each draft went to the funder
- Presented interim results at two department seminars

Harlow's Pharmacy

Sheffield, UK

Sales Assistant

Sep 2015 – Jun 2017

- Worked weekend shifts on the till and pharmacy counter while studying, and trained four new starters
- Kept the weekly stock count for the health and beauty aisles and flagged slow lines to the store manager

KEY PROJECTS

Store footfall forecasting | *MSc dissertation, Python*

Jan 2021 – Sep 2021

- Combined two years of door-counter data with weather and bank holiday calendars to forecast daily footfall for 40 stores
- Cut forecast error by 22% against the retailer's existing method, and the model became the starting point for staffing plans at Northgate

Open data dashboard for Leeds bus punctuality | *Personal project, Power BI*

Mar 2022

- Built a public dashboard from open bus timing data that a local transport campaign group used in its submission to the council

EDUCATION

University of Manchester

Manchester, UK

MSc Data Science, Distinction

Sep 2019 – Sep 2021

- Part-time while working; dissertation on forecasting store footfall with weather and calendar data

University of Sheffield

Sheffield, UK

BSc (Hons) Economics, First Class

Sep 2014 – Jun 2017
