SUMMARY

Product designer with three years of experience in health and consumer apps. I run my own interviews, prototype in Figma, and work closely with engineers until the feature ships. Most proud of work that made complicated forms feel short.

EXPERIENCE

Product Designer <i>Larkspur Health</i>	Mar 2024 - Present Seattle, WA
- Redesigned the patient intake flow from 14 screens to 6, raising completion from 61% to 83% in the first quarter - Ran 22 interviews with clinic staff and turned the findings into a shared research library the team still uses - Built a Figma component library with the front-end lead that cut design-to-build handoff time by about a third	
UX Designer <i>Cobalt Lane Studio</i>	Jul 2022 - Feb 2024 Seattle, WA
- Designed mobile checkout for a regional grocery chain, which lowered abandoned carts by 12% after launch - Led usability tests with 40 participants across five client projects and wrote the findings for each client - Mentored two design interns through their first shipped features	
Design Intern <i>Northgate Transit Authority</i>	Jun 2021 - Aug 2021 Tacoma, WA
Sketched and tested new bus stop signs with riders at three busy stops, and the agency adopted two of the ideas	

PROJECTS

Wayfinding for Pine Street Library <i>Research, signage</i>	Oct 2023
Volunteered to map how visitors get lost and designed floor signs that reduced front desk direction questions by half	
Habit tracker concept <i>Figma, ProtoPie</i>	Jan 2023
Designed and tested a habit app for shift workers, written up as a case study with 4,000 reads on Medium	

EDUCATION

Pacific Crest University <i>Bachelor of Fine Arts in Interaction Design</i>	Seattle, WA Jun 2022
---	-------------------------

SKILLS

Design: Figma, ProtoPie, Adobe Illustrator, design systems
Research: Interviews, usability testing, surveys, Dovetail
Collaboration: Jira, Notion, basic HTML and CSS
