Hiring Manager
Department of Emergency Medicine
St. Odile Medical Center
Charlotte, NC

Dear Hiring Manager,

I'm applying for the Physician Assistant position in your emergency department. I've worked as a PA for five years, the last four in a 48-bed emergency department at Pecanwood Health System that sees about 70,000 visits a year.

I'm comfortable carrying a full share of patients, usually 25 to 30 a shift, and handling the procedures that come with them. I also care about what happens after the visit. Last year I helped write our department's pathway for low-risk chest pain, which shortened average stays by two hours and gave patients clearer follow-up instructions.

Your posting mentions a new fast track area opening next spring. I worked in urgent care before the emergency department and know how much a well-run fast track can take the pressure off the main department.

Thank you for considering my application. I'd be glad to shadow a shift or meet the team.

Sincerely,

Samantha Cho
